Patent and Trademark Office

bottles for use with oral and enteral syringes, adapters structurally fitted and specially adapted for medical use for medical syringes and medicine bottles, connectors structurally fitted and specially adapted for medical syringes for medical use, fitted connectors specially adapted for medical syringes for medical use, stopcock structurally fitted and specially adapted for medical use to control the flow of fluids, suction tubes for medical purposes, syringe caps specially adapted for use with medical syringes, syringes for medical purposes, tubes specially adapted for medical use for enteral feeding and drainage, drainage tubes for medical purposes, vacuum pumps for medical purposes, medical specimen collection devices in the nature of bottles for use with medical devices for obtaining body fluid samples; medical apparatus, namely, forced air warming and cooling systems for blood comprised of a thermal unit, hose, tubing, cover and controls therefor for the purposes of temperature regulation; medical apparatus, namely, forced air warming and cooling systems for intravenous fluids comprised of thermal unit, hose, tubing and controls therefor for the purposes of temperature regulation; medical apparatus, namely, electric blankets for medical purposes, electric warming pads for medical purposes; medical apparatus and instruments, namely, brushes specially adapted for medical use for the removal of debris from medical connectors for draining, transfusion and administering of drugs and nutrition; medical apparatus and instruments, namely, connector brushes specially adapted for medical use for the removal of debris from medical tubing for draining, transfusion and administering of drugs and nutrition; surgical apparatus and instruments; medical diagnostic apparatus for analysis of body fluids; medical diagnostic testing apparatus for analysis of body fluids; patient positioning boards for medical and physical therapy use, moving and positioning patients; inflatable patient transfer pads for medical and physical therapy use, moving and positioning patients; inflatable positioning pads for medical and physical therapy use, moving and positioning patients; inflatable therapy pads for medical and physical therapy use, moving and positioning patients; sheets for patient transfer and positioning; slide sheets for patient transfer and positioning; glide sheets for patient transfer and positioning; medical drapes; surgical drapes; furniture especially made for medical purposes; patient transfer boards for medical and/or therapy use; medical devices, namely, blood pressure monitors; pessaries for medical use; catheters; obstetric apparatus and instruments, namely, speculums, forceps for repositioning and endometrial samplers for biopsy; gynaecological apparatus and instruments in the nature of medical instruments for examining women's reproductive organs; urological apparatus and instruments, namely, urethral dilators, forceps for repositioning; hot and cold compresses for surgical purposes; hot and cold compresses for sanitary and medical purposes; medical apparatus for use in gastrostomy procedures; medical instruments for use in gastrostomy procedures; gastrostomy feeding tube sets consisting of catheters, gastrostomy tubes and syringes; percutaneous endoscopic gastrostomy kits consisting of catheters, gastrostomy tubes, needles, syringes and dilators; apparatus for enteral feeding, namely, enteral feeding tubes for connecting and drawing up nutrition from feeding bottles, syringes for enteral feeding, enteral feeding bags sold empty, enteral feeding syringe drivers specially adapted for medical use for delivering measured amounts of enteral nutrition, enteral syringes for medical use, extension tubes specially adapted for medical use for use with enteral feeding tubes, enteral syringe pumps specially adapted for medical use for delivering measured amounts of enteral nutrition, jejunal enteral feeding tubes; tubes for enteral feeding; gastric feeding tubes; structural and replacement parts and fittings therefor

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 03-29-2021 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1639089 DATED 09-07-2021, EXPIRES 09-07-2031

No claim is made to the exclusive right to use the following apart from the mark as shown: "GROUP"

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
