United States Patent and Trademark Office

Reg. No. 7,691,109

Registered Feb. 18, 2025

Corrected Apr. 15, 2025

Int. Cl.: 35, 36, 37, 42

Service Mark

Principal Register

MR GROUP HOLDING PTE. LTD. (SINGAPORE PRIVATE LIMITED COMPANY)

106 DUCHESS AVENUE,

#05-11 DUCHESS RESIDENCES SINGAPORE 266311

SINGAPORE

CLASS 35: Collecting, collating, and analyzing business data that is generated from real time data monitoring for onshore and offshore rigs and associated equipment; compiling and analyzing blowout prevention (BOP) data for business purposes in order to measure the performance, and monitoring of onshore and offshore rigs and associated equipment; providing [business efficiency advice and] business process auditing of an organization's business management systems and health and safety protocols; competency assessments, namely, testing * of personnel * to determine professional competency in the field of oil and gas engineering; conducting crew competency assessments, namely, testing to determine professional competency in the field of oil and gas engineering; management of business projects in the field of technical and professional and labor services; business supervision on behalf of others

CLASS 36: Financial valuations of equipment including standalone and ancillary oil rig equipment; financial valuations of oil rig equipment assets and associated oil field equipment; financial valuations and investment risk assessment services

CLASS 37: Commissioning, namely, installation and maintenance services for rig equipment and associated oilfield equipment repair and maintenance services; building of rigs; installation, repair and maintenance services for rigs and equipment; rig construction and maintenance services, namely, construction project management, oversight, and supervision of rig upgrades, construction, reactivations, and conversions; rig and equipment installations; workshop repair supervisions and acceptance, namely, oil rigs repair services; drilling services for oil, gas and geothermal wells and salt mining services involving the drilling operational support, completion and intervention; oil drilling project management of installation, maintenance and repair services for wells and rig operations and rig upgrades, modifications and construction; technical supervision of drilling and well drilling operations; installation, commissioning and

Coke Moya Smead

Acting Director of the United States Patent and Trademark Office

construction oversight for rig equipment; oil rig repair services involving the lay-up, storage, preservation and maintenance of rigs; services to reactivate rigs to being into operational readiness, including installation and commissioning of upgrades, modifications and repairs; providing installation oversight for rig equipment; project management of industry related business work scopes, namely, maintenance of rig equipment and associated oilfield equipment

CLASS 42: * Technical * inspection and condition assessments of rigs and rig equipment to prevent dropped objects; inspections of equipment for the purpose of assessing condition, compliance with industry standards, and quality assessments of assets, being technical surveying services; subsea operational and technical support services being engineering * survey and inspection * consulting services; * technical * inspections and condition assessments of ready-to-drill and ready-to-operate oil rig assets; technical inspection services for rigs, wells and associated oilfield equipment; technical inspection of rigs; engineering surveys and inspection of rigs, wells and associated oilfield equipment; commissioning, namely, testing and inspection services for rigs, wells and associated oilfield equipment; structural inspection services being engineering, quality assessment, and surveying services; conducting quality evaluations of rigs, wells and associated oilfield equipment; technical inspections of rigs, wells and associated oilfield equipment for the purpose of insolvency and liquidation proceedings and due diligence; conducting engineering surveys and engineering evaluations; conducting engineering feasibility studies; well engineering services; engineering services; monitoring and technical verification of rigs to various industry and OEM (original equipment manufacturer) standards and good industry practice; * evaluation, namely, * monitoring blowout prevention and associated well control equipment for adherence to industry standards and original equipment manufacturer standards; conducting inspections and quality evaluations of systems and processes relating to rigs and associated oilfield equipment; conducting quality evaluations and inspections of preventative maintenance systems; conducting quality evaluations and inspections of asset integrity maintenance systems and critical spares; * engineering services, namely, * conducting marine quality evaluations; * engineering services, namely, * conducting HSE (health, safety and environment) quality evaluations; providing specialized technical support, namely, engineering consulting on oil rig equipment; conducting condition and pre-hire condition and selection inspections and wellbore survey services; inspection and commissioning, namely, engineering services for reactivations in relation to capital projects; technical surveying including inspections and real time data monitoring for onshore and offshore rig and associated equipment; technical surveying services in the nature of ready-to-drill and ready-to-operate inspections of assets, blowout prevention performance data collection and analysis; subsea operational and technical support services being engineering consulting services; quality evaluations and technical verification of software and control systems for rigs, wells and associated oilfield equipment; quality evaluations for management and HSE systems; product quality testing, namely, witnessing of shear tests; factory acceptance testing of rigs, wells and associated oilfield equipment; integrity testing of rigs, wells and associated oilfield equipment; technical due diligence research, conducting safety evaluations, and technical validation and verification services for the design, construction or installation of equipment and facilities; monitoring and quality evaluations of blowout prevention equipment and associated systems to assure compliance with industry standards; engineering project management services; acting as client representative, namely, providing engineering advice on equipment design engineering for new rigs and structures, upgrades and/or modifications, rig stacking, rig reactivations and engineering support; providing equipment engineering verification statements; provision of engineering and drilling operational support in the nature of engineering advice, on completion and intervention of oil, gas and geothermal wells and salt mining; project management of services, namely, engineering consulting for wells and rig operations; well engineering and well examination engineering and related technology consulting services, well integrity engineering and related technology consulting services, well intervention engineering and related technology consulting services, well optimization engineering and related technology consulting services, technical drilling and related

technology consulting services and project resourcing, namely, research in the field of oil exploration; providing commissioning and operational support, namely, engineering and technology consulting services for rig equipment; quality evaluations and technical verification of software and control system for rigs, wells and associated oilfield equipment

The color(s) blue and red is/are claimed as a feature of the mark.

The mark consists of the stylized letters "MR" in red and blue. White represents background, outlining, shading, and/or transparent areas and is not part of the mark.

PRIORITY DATE OF 04-26-2022 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1715217 DATED 08-11-2022,
EXPIRES 08-11-2032

SER. NO. 79-363,631, FILED 08-11-2022

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
